

JScriptcase Module Tutorial

Click **Extensions > Install/Uninstall** from the menu

 Select the package which you downloaded with your license and click **Upload File & Install**.

The screenshot shows the Joomla! Extension Manager interface. At the top, there's a navigation bar with links for Site, Menus, Content, Components, Extensions, Tools, and Help. The Extensions menu is currently active, with a sub-menu dropdown showing options: Install/Uninstall (which is highlighted), Module Manager, Plugin Manager, Template Manager, and Language Manager. Below the navigation, there's a main content area titled "Extension Manager". It includes tabs for Install, Components, and Modules. Under the Install tab, there are three sections: "Upload Package File", "Install from Directory", and "Install from URL". In the "Upload Package File" section, a file input field contains "C:\mod_jscriptcase_1.4.zip", a "Gözat..." button, and a "Upload File & Install" button.

JScriptcase module will be installed when you see the **Install Module Success** information

Click to the **New** button.

The screenshot shows the Joomla! 1.5.20 administrator interface with the title "Joomla! Ilirian JScriptcase Demo". The menu bar includes Site, Menus, Content, Components, Extensions, Tools, and Help. The top right shows "Version 1.5.20". Below the menu is a toolbar with icons for Preview, Logout, and various module management functions: Enable, Disable, Copy, Delete, Edit, New, and Help. A sub-menu bar below the toolbar has "Site" and "Administrator" tabs, with "Administrator" selected. A filter bar allows filtering by Template, Position, Type, and Enabled status. A table lists modules, with "Breadcrumb" selected. The "New" button is highlighted with a yellow box.

Select **JScriptcase Module** from the list.

The screenshot shows the "Modules" list in the Joomla! administrator. The "JScriptcase Module" is selected and highlighted with a yellow box. A tooltip appears over the selected module, containing the text: "JScriptcase integrates scriptcase application to Joomla as a module. You can place a scriptcase application to any template area." The bottom of the screen displays the Joomla! footer: "Joomla! is Free Software released under the GNU/GPL License."

Click to the **Next** button.

The screenshot shows the Joomla! administrator interface with the title "Joomla! Ilerian JScriptcase Demo". The top menu bar includes Site, Menus, Content, Components, Extensions, Tools, Help, Preview, and a user icon. A toolbar with icons for preview, save, and cancel is visible. The main content area is titled "Module: [New]" and shows a list of modules. The "Modules" section lists 18 items, each with a radio button and a description: Archived Content, Banner, Breadcrumbs, Custom HTML, Feed Display, Footer, JFusion Activity Module, JFusion Login Module, JFusion User Activity Module, JFusion Who's Online Module, JScriptcase Module (selected), Latest News, Login, Menu, Most Read Content, Newsflash, Poll, Random Image, Related Articles, Search, Sections, Statistics, Syndicate, Who's Online, and Wrapper. At the bottom of the module list, a note states "Joomla! is Free Software released under the GNU/GPL License."

Enter the JScriptcase Module's title.

Set **Enabled** option **Yes**.

Select the modules **Position**.

Select the application from **Module Parameters > Application**. * You have to install & configure JScriptcase component to get the application list.

Integrates scriptcase application to Joomla as a module. You can place a scriptcase application to any template area.

Menu item(s) from the List

Your JScriptcase Module is active now.

The screenshot shows a Joomla website interface. At the top, there's a navigation bar with tabs: Home, Forms, Grids, and Container. Below the navigation, the main content area has a "Main Menu" sidebar on the left containing links to Home, Register, Products, and form24. The main content area displays a "WELCOME TO ILERIAN JSCRIPTCASE DEMO" message and a "Please click on the menu links to see integrated applications." A "Login Form" is present with fields for Username and Password, a Remember Me checkbox, and a Login button. Below the login form is a link to forgot password and another to forgot username. On the right side, there's a "JScriptcase Module" section showing a grid application with a toolbar at the top. The grid displays a single record for "Alfredo Futterkiste" with fields for Name, Birth Date, and Buttons for Add New, Save, and Delete. At the bottom of the page, it says "Powered by Joomla!, valid XHTML and CSS".

The screenshot shows the "Module: [Edit]" configuration screen for the JScriptcase Module. It is divided into two main sections: "Details" on the left and "Parameters" on the right. In the "Details" section, the module type is set to "mod_jscriptcase", the title is "JScriptcase Module", and the show title and enabled options are selected. The position is set to "User1", the order is "0:JScriptcase Module", and the access level is "Public". The ID is 79. The description field contains the text: "JScriptcase integrates scriptcase application to Joomla as a module. You can place a scriptcase application to any template area." In the "Parameters" section, under "Module Parameters", the application is set to "grid32". In the "Menu Assignment" section, the "Menus" dropdown is set to "All". The "Selection" dropdown is set to "forms", which is highlighted in blue. The list of menu items under "forms" includes: Register Navigation, Insertions, alterations, exclusion options, Fields Reload (State and City), Form with Blocks and Tabs, HTML Editor, Data Entry using Input Masks, and Editable Grid.
