Installation Guide

Installation

Download the Latest version plugin file from Ilerian web site download page.

There is one installation file for both trial and full usage.

1. Open **Confluence Admin > Plugins > Install** tab and click **Upload Plugin.**
2. Choose installation file on your local computer and press **Upload** button.

Licensing

Get License File

 Trial license: Register and login to your user account on Ilerian web site. Open **Get Trial License** > **Attachit**. This creates a trial license and sends to your account e-mail.

 Perpetual license: Purchasing the plugin associates the license with your account. If there is no Ilerian account with the email addres that you used for purchase, new acccount is created and password is emailed to the email address.

1. **Confluence Admin > Plugins > Manage Existing** tab > **Ilerian Attachit** and click **Configure**.
2. Get the server ID.
3. Login to your Ilerian account and open **My Licenses**
4. Click "Specify Server ID".
5. Enter your server ID and press "Submit" button.
6. On My Licenses page, click on **license** and download your perpetual license file.

Install License File

1. Open **Confluence Admin > Plugins > Manage Existing** tab > **Ilerian Attachit** and click **Configure**.
2. Choose your license file from your local computer and press **Install License** button.
